

**STRUCTURE AND METHOD FOR FORMING A DIELECTRIC
CHAMBER AND ELECTRONIC DEVICE INCLUDING THE
DIELECTRIC CHAMBER**

5

ABSTRACT OF THE DISCLOSURE

A method (and structure) that selectively forms a dielectric chamber
on an electronic device by forming a dummy structure over a semiconductor
substrate, depositing a dielectric layer over the dummy structure, forming an
10 opening through the dielectric layer to the dummy structure, and removing the
dummy structure to form the dielectric chamber.
